

# **Ferromin Inc.** **Tomclid Iron Magnetite Mine**

## **Quality Control Technician**

### **Contract Position (3 months)**

Ferromin Inc. is currently seeking a reliable college or university student of Algonquin descent with a particular interest in Materials Engineering or Construction Technology for contract employment at the Tomclid Iron Magnetite Mine near Ompah, Ontario. The contract will run from September 1, 2014 to November 30, 2014 (dates are approximate).

This position will involve collecting daily representative samples and conducting a series of tests on crushed magnetite products in a production environment. The successful candidate will be expected to maintain detailed records of all testing.

The successful candidate will complete mandatory training provided by Ferromin Inc., including site orientation and safety training such as the Surface Miner Common Core Training as prescribed by the Ontario Ministry of Labour.

Please note that applicants who demonstrate safety-consciousness will be given priority. Safety equipment, including steel-toed safety boots, safety glasses, a hard hat and orange safety shirt/jacket will also be required to be worn at all times while on the Tomclid Iron Magnetite Mine site.

It will be considered an asset for the successful candidate to provide their own transportation for personal travel. A company truck will be provided during the work week. Accommodations will be provided near the Tomclid Iron Magnetite Mine near Ompah, Ontario.

Compensation will be commensurate to the successful candidate's education and experience.

Qualified candidates are invited to send a cover letter and resume by mail or email no later than **11:59 p.m. on Wednesday, August 27, 2014** to:

Ferromin Inc.
